

# Public Announcement of TISAX Certification Completion

*Tokyo, Japan (Shinagawa Office), 2026 – NTT DATA Global Services (NGS) is pleased to announce the successful completion of the current TISAX renewal assessment. The assessment result is now available to authorized partners via the ENX Portal.*

*“The confidentiality, availability and integrity of information have great importance to NGS and its customers, and NGS has taken extensive measures on protection of confidential information. ” - Mr. Nao Yoshida, President and CEO*

*As a part of our ongoing information security program, NGS participates in TISAX and adheres to the ISA requirements established by the German Association of the Automotive Industry (VDA). Through this structured and recognized framework, we ensure that our security controls meet industry expectations and regulatory requirements.*

*The TISAX assessment result is available exclusively through the ENX portal (<https://enx.com/en-US/TISAX/>) for registered participants.*

Scope-ID: **SH086N**

VDA ISA Version: **6.0.3**

*TISAX is governed by the ENX Association on behalf of VDA to facilitate mutual recognition of information security assessments across the automotive sector. Assessments are conducted by accredited audit providers who regularly demonstrate their qualifications. Please note that TISAX and its results are not intended for the general public.*
