

NTT DATA Enterprise Application Services Opens “Center of Excellence” in Dalian, China as the development site of the offerings.

TOKYO, Japan — November 18, 2019 — NTT DATA Enterprise Application Services, Co., Ltd.(NTT DATA EAS), the global outsourcing business arm within NTT DATA Corporation (9613:JP), announced today that it opened a new Center of Excellence (CoE) in Dalian, China.

NTT DATA EAS’s subject matter experts have been leading various global outsourcing projects of both Japanese and non-Japanese large and medium enterprises. To leverage these strengths, to meet envisioned demand and offer its customers an optimized, competitive and seamless customer experience, NTT DATA EAS opened this new CoE in Dalian, China.

The business offering will be developed based on NTT DATA’s knowledge and experience over the past 20 years of business operations in Japan and across the globe. NTT DATA EAS will acquire world class talent leveraging the NTT DATA Group synergies to offer greater customer benefits, including active business expansions while meeting the dynamic demands in the market place.

Dalian CoE is organized collaboratively with NTT DATA Group subsidiaries, itelligence China and NTT DATA Services, Inc.

- itelligence China is rapidly expanding its business in the SME, LE sector and multi-national enterprises in China. NTT DATA EAS will jointly work with itelligence China to secure the talent focusing on SAP S/4 HANA solution.
- NTT DATA Services, Inc. provides help desk and technical support services for the customers in worldwide. Using its Dalian center it provides a platform and facilities for further business collaboration and expansion for Japanese customers. Dalian CoE is built using the same platform.
