

NTT DATA Enterprise Application Services Announces Company Rebrand to NTT DATA Global Services

TOKYO, Japan - November 25, 2019 - NTT DATA Enterprise Application Services, Co., Ltd. (NTT DATA EAS), the global outsourcing business division within NTT DATA Corporation (9613:JP), announced today its rebrand to NTT DATA Global Services Corporation with effect from 1st December, 2019

NTT DATA Group, offers services in 53 countries / regions, and 221 cities worldwide with more than 130,000 IT professional with exceeding USD 20 billion annual revenues. NTT DATA Group is highly ranked in the global market and secured 8th place last year in the Gartner global IT Company ranking. NTT Data-is also recognized as Top 10 Service Provider in 4 Verticals - Banking & Securities, Insurance, Government and Manufacturing & Natural Resources.

NTT DATA EAS is part of global strategic companies in NTT DATA Group. Since its inception in 1999, the company provides SAP System Implementation & Support Services, offering offshore services to the demands of global rollout projects for Japanese Multinational Corporations. Throughout its journey, NTT DATA EAS has been enhancing its capabilities and offering services to global Fortune 500 companies, fulfilling their Onshore, nearshore and offshore requirements. In 2016, the business portfolio was enhanced through a strategic merger of Dell Services Japan and since then the organization is working towards providing full stack (applications, middleware to infrastructure) services globally.

Nao Yoshida, for President and CEO of NTT DATA Global Services Corporation stated, "We decided to rebrand to NTT DATA Global Services, to reflect upon the organization's current client base and to strengthen offerings by demonstrating strong commitment to address the global business needs; and having strategic investments to foster seamless global services. Our new name will reflect our company's commitment to enhance our global capabilities that will go beyond our existing service offerings. We are investing heavily to build the future of our organization, and will lead the global business not only as NTT DATA group but as NTT Group by establishing global organization setup thru multiple global COE and COC."
